No

Risks

- Has all electrical Equipment been portable appliance (PAT) tested by a competent person within the last year?
- Have you identified ignition/heat sources & ensured that these will be kept away from all flammable/combustible materials?
- Are the structure, roofing, walls, lining & fittings of your stand flame retardant?
- Do you have an inspection/gas safety certificate, from someone who is GAS SAFE registered, for the appliances & pipework and are all hose connections made with "crimped" fastenings?
- Will any LPG cylinders be kept outdoors, secured in an upright position & out of the reach of the general public?
- Will appliances be fixed securely on a firm, non-combustible, heat insulating base & surrounded by shields of similar materials on 3 sides?
- Will you ensure that only those cylinders in use/likely to be used, are kept on your stand & the number is kept to a minimum?
- Do you have appropriate fire extinguishers/fire blankets available that have been tested within the last 12 months?
- Are staff appropriately trained in the basic operating instructions of the fire extinguisher/blanket?
- Will staff be aware of what to do in the event of a fire, how to raise the alarm, evacuate the stand, exit locations etc?
- Will you ensure that all available exits will be unobstructed & unlocked at all times that the stand is in use?
- Will you have sufficient bins for refuse or suitable arrangements to prevent an accumulation of refuse?
